

The same questions in Korean and in English

■ Korean ▨ English (same items)

Matched bilingual tasks — same questions in both languages

Medical exams — different tests, not a language comparison

0 20 40 60 80 100

Accuracy on 100 questions (%)

All bars are 100 questions with Wilson 95% intervals. Medical rows are two different exams, so the pair below the line is not a language comparison.
